2. The Municipal Elementary School, Mannagudda is a Lower Elementary School with 122 punils distributed over three standards. The avera e attendance is about 100. The school is now held in the Basel Mission building, which the Municipal Council proposes to acquire. The building is roofed with tiles over bamboos. Though the floor space is not sufficient even for the present strength it is reported that the Chairman, Municipal Council has expressed his readiness to provide additional accommodation after acquisition. As regards the site, it is reported that there is sufficient space for a garden and a playground and that it is accessible to all classes of pupils. In the concentration scheme which is being considered by the Chairman, Municipal Council and the District Educational Officer this school will be retained as a junior school as a feeder to a Higher Elementary School which is to be located at a distance of about a mile. In the above circumstances, the scheme may be included in Part II of the Budget Estimate for 1934-35 and a subsidy of Rs.913/- sanctioned towards the cost of acquisition of the Basel Mission building together with the site on which it stands.

Sir, The Director of Public Instruction,
Madras.

The Municipal Mannagudda Elementary school for boys is located in a building rented for the purpose from the local Basel Mission. The owner wants to sell the building with the site and if the same is sold to others there is no likelihood of the council getting any other suitable building in the locality for the school. It is therefore proposed to acquire the site with the building for the use of the school The cost of acquisition is estimated at Rs.1,827-4-3 - vide letter from the Collector, Ref: B 3 - 1246 - 33, dated the 25th April 1933, copy enclosed. To avoid the purchase of the

same

same by others acquisition proceedings have already been started and the notification under Section 4 of the Land Acquisition Act has already been published -- Vide page 176, Fort St. George Gazette, dated 16th May 1933, Part I A. The acquisition is expected to be completed by the end of July next. 433 I request therefore that you will be pleased to move Government to sanction a subsidy equivalent to a moiety of the cost of acquisition. If funds are not available, in the current year to meet the payment of the subsidy, I request that the same may be provided for in the provincial budget for the next year. Meanwhile the cost of acquisition will be met by the council from its own funds.

The School was being held in the building for the last over 10 years. There is space enough in the compound for a playground. The site is accessible to all communities including the Adi-Dravidas.

Your obedient servant,

CHAIRMAN, M.C.
